

Knowledge, Skills, Networks in Earth and Planetary Science

The not-for-profit Agate Project Ltd offers a range of education opportunities for professionals, researchers and students based in Africa in the field of earth and planetary sciences.

## Our Activities in Africa

### Training

- Technical Short Courses
- Field based short courses
- Webinars
- Conferences / workshops

### Research support

- Research grants
- Scholarships
- Exchange programs

**The first call for Graduate Scholarships is now open.**

## How can Agate Project help your company?

- Provide quality training for your staff based in Africa
- Train the next generation of people to train your staff
- Act as an interlocutor between universities and companies to facilitate named scholarships

### Next Short Course:

Structural Geophysics – February 2021

## How can you help the Agate Project?

### As an individual:

- Donate to Agate Project
- Contribute to our training programs, e.g. a 15 minute video to share your experiences and technical knowledge

### As a company:

- Donate to Agate Project
- Talk to us about setting up a named scholarship
- Organise in-house training
- Send staff to open training sessions
