

West African Craton Conference

23 OCTOBER 2024

University of Lomé, Togo

This conference will present the latest findings on the tectonics, minerals resources, and regolith of the West African Craton and the wider West African Region. The outcomes of this meeting will underpin discussions about future collaborative research programs in the region.

Who should attend

This conference offers the opportunity for companies, geological surveys, development agencies and researchers to define key future research and training activities that will ultimately provide not only new geological information but also a new geological framework and exploration insights.

This conference is also an opportunity to meet like-minded people from various countries who share the same interest.

Research Themes

1. Archean and Proterozoic tectonics and resource potential.
2. Proterozoic to Tertiary basin evolution and resource potential.
3. Regolith and landform evolution.

Date

Wednesday 23rd October 2024, from 12pm to 6pm

Location

University of Lomé, Togo

Conference Type

Face to face - The language of the event is French and English

Confirmed Speakers

- Anne-Sylvie André-Mayer (Université de Lorraine) - *Les gisements métalliques, traceurs des transferts manteau-croûte.*
- Guillaume Duclaux (Université Côte d'Azur) - *The panafrikan Dahomey-ides evolution and the Pharusian suture zone in general.*
- Julien Perret (University of Western Australia) - TBC
- Lenka Baratoux (IRD) - *L'evolution tectonometamorphique du WAC*
- Mahamadou Diallo (Ecole Nationale d'Ingénieurs (ENI-ABT)) - *KKI and its tectonic and gold mineralization.*
- Mark Jessell (University of Western Australia) - TBC
- Mathieu Benoit (GET-OMP) - *When magmas and hydrothermal fluids meet to form chromite deposits at Moho level.*
- Nicolas Thebaud (University of Western Australia) - TBC
- Patrick Hayman (Queensland University of Technology) - TBC
- Yao Augustin Koffi (Université Félix Houphouët-Boigny d'Abidjan-Cocody) - *Évolution géodynamique du Craton Ouest Africain à la transition Archéen-Paléoproterozoïque dans le domaine Sassandra-Cavally (Sud-ouest de la Côte d'Ivoire).*

Registration

Participation at the event is free of charge but registration is compulsory. The registration deadline is the 16 October 2024.
